Clase de Riesgo: IV

Indicación/es autorizada/s:

El sistema de implante dental está diseñado para ser utilizado en sitios edéntulos de la mandíbula o maxilar, como apoyo para prótesis dentales completas, pilares terminales o intermedios, para puentes fijos o dentaduras parciales o para sustitución de un solo diente, permitiendo la reconstrucción protésica en pacientes parcial o completamente desdentados a través del reemplazo de la raíz como parte del procedimiento de restauración dental.

Período de vida útil: 4 Años

Condición de uso: Uso exclusivo a profesionales e instituciones sanitarias

Fuente de obtención de la materia prima de origen biológico: No Aplica

Forma de presentación: Por Unidad

Método de esterilización: Radiación

Nombre del fabricante:

Alfa Gate Holding GmbH

Lugar de elaboración:

Friesdorfer Strasse 151 53175 Bonn Alemania

Se extiende el presente Certificado de Autorización e Inscripción del PM 2769-11 , con una vigencia cinco (5) años a partir de la fecha de la Disposición autorizante.
